

NAFTALI MURIMI NJERI

EDUCATION

Silesian university of Technology | Gliwice
2024 - Current

Faculty of Organization Management
Major: MSc Cognitive Technology

Area of focus

Artificial Intelligence & Machine Learning
Cognitive Systems & Human-AI Interaction
Data Analytics & Statistical Modeling
Generative AI & Intelligent Systems

Certification

Corporate Readiness Certification (Kyndryl Partner Program)
Microsoft Azure AZ-900 certification

Murang'a University of Technology
2018 – 2022

Bachelor of science Information Technology
❖ First class Honours

Kesap Research Centre
2020 – 2020

Data management and Data Analysis {SPSS & STATA} Certification

Itundu Secondary School
2014-2017

Kenya certificate of secondary education
❖ B- {minus}

Technical Skills

Programming: Python (Pandas, NumPy, Scikit-learn), SQL, R, Bash/Shell.

Operating Systems: Linux (Terminal/Command Line), Windows Server.

Tools & Version Control: Git (Commit, Branch, PR), Django, Azure, MS office Suite

Networking: TCP/ IP Protocols, Client-Server Architecture, API Integration.

Languages: English (Fluent), Polish (Basic),

Driving: Category B

PROFILE

Data-focused Master's student in Cognitive Technologies with a First-Class BSc in Information Technology. Proficient in Python, SQL, and statistical modeling, with hands-on experience building analytics pipelines and AI prototypes. Eager to apply quantitative skills to demand forecasting, root cause analysis, and data-driven decision support within Bosch's global IT supply chain. Skilled in translating complex data into actionable insights for cross-functional teams.

PROFESSIONAL EXPERIENCE

Freelance Software Developer & Data Analyst

Dec 2024 – Present

Engineered scalable, data-centric web applications using Python (Django) and SQL, integrating third-party APIs for real-time analytics and visualization using Excell and Power BI.

Developed AI-assisted prototypes using LLM APIs (ChatGPT, Gemini), focusing on prompt engineering, system behavior analysis, and automating insight generation.

Collaborated remotely with international clients, delivering well-documented solutions and maintaining version control using Git.

System Administrator & ICT Officer

Arise Technical Training Institute | Jun 2023 – Sep 2024

Managed institutional IT infrastructure and Linux-based systems, ensuring high availability and security for staff and students.

Leveraged Microsoft Excel and Power BI to analyze ticketing system data, building interactive dashboards that visualized resolution trends enabling data-driven decisions that reduced average ticket resolution time.

Created standardized troubleshooting guides and FAQ documentation for common institutional IT issues, reducing average resolution time by 25%.

Developed and enforced IT policies aligned with industry best practices, ensuring compliance with data handling regulations under the Kenya Data Protection Act 2019.

ICT Instructor & Program Coordinator

Nima College – Ngong Campus | Jun 2022 – Jun 2023

Delivered comprehensive instruction in Programming (Python), Data Analysis, Web Development, and Introductory AI concepts to 200+ students.

Designed practical projects and assessments that emphasized analytical thinking, resulting in an 18% improvement in programming pass rates.

Guided students in building data-driven and AI-enabled applications, fostering problem-solving skills and technical confidence.

SELECTED PROJECTS

AI-Powered Data Analysis Tools:

Integrated robust error handling mechanisms to automatically capture, log, and report network failures, significantly streamlining the debugging and resolution process.

Built an automated ticketing solution that leverages AI-driven analysis to classify incoming IT incidents and suggest corrective actions. Enabled faster response times by prioritizing critical issues based on historical data patterns.
